Test Log: LaviPortfolio

My name is Aisha Niyonsaba.
Registration number: 2527104 | Verification code: MOB-A2-7104 | Package: rw.ac.ines.ug2527104.laviportfolio

Tested device (make and model)	
Android version	
Date and time of testing	
APK file tested	MOB_A2_2527104.apk
App version	1.0.0
Final commit hash	

Complete the Result column (Pass / Fail) and Notes only after testing the installed APK on a physical Android phone. Nothing in this table has been pre-filled as passed.

No.	Test	Expected	Result	Notes
1	Install APK on the phone and open it (Expo Go not installed or not used)	App launches from its own icon		
2	Home shows 'My name is Aisha Niyonsaba.' as the first sentence	Exact sentence visible		
3	Home shows avatar/picture, headline, biography, verification code	All present		
4	Skills tab shows 5 skill groups and the education timeline	All visible		
5	Open each of the 3 projects, then press Back (screen and Android Back)	Details show; Back returns to the list		
6	Edit tab: enter an invalid headline (e.g. 'Hi'), press Save	Field message shown; nothing saved		
7	Enter valid values and press Save	Success message; Home updates		
8	Close the app fully and reopen it	Saved profile is still there		
9	Take a photo: allow camera permission	Preview shown and saved		
10	Take a photo: deny camera permission	Friendly message; app does not crash		
11	Choose from gallery, then cancel the picker	Cancellation message; old picture kept		
12	Replace picture, then Remove picture	New picture shown; avatar shown after remove		
13	Reopen app after choosing a picture	Picture is restored		

No.	Test	Expected	Result	Notes
14	Reset to defaults	Default profile restored; saved picture removed		
15	Turn on Airplane Mode and use all tabs	Everything works; GitHub link needs internet		
16	About screen: app name, name, reg. number, code, version, data-use text	All correct (MOB-A2-7104)		
17	Increase Android font size to largest and review every screen	No overlapping or cut-off text		
18	Test on a narrow phone screen	Layout is readable		

Airplane Mode test: device clock time shown in demo video: _____
